DETAILED ACTION

Status of Claims

1. Claims 7-11 have been canceled in Applicant's amendment filed on *July 27, 2004*. Therefore claims 1-6 are under prosecution in this application.

Allowable Subject Matter

2. Claims 1-6 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest individually or in combination the following:

fetching the configuration value from the non-volatile memory when an operation clock reaches its working voltage and frequency, wherein the high-speed peripheral works at the operation clock, repeating the step of fetching until a most significant bit (MSB) of a fetched configuration value changes from a first state to a second state, asserting the configuration value fetched from the non-volatile memory to the at least one configurable device to configure the configurable device.

For these reasons claim 1 is deemed to be allowable over the prior art of record, and claims 2-6 are allowable by dependency.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for
